Rebellion—Part Two

Oleson and Rebel Concur; Tuition Hike May Have Hurt

By Bob Erxleben

A tuition increase last September seems to have priced some students out of Omaha University. That observation was based on a study made by OU testing and counseling head Dr. Gale Oleson. The study compared high school

In 1962, the percentage of Omaha high school seniors who entered OU was 19. In 1963, it rose to 20 per cent.

graduation and college enrollment figures since 1962.

"I think we could have logically expected 21 per cent in 1964," Dr. Oleson said.

Instead, the percentage fell to 18 per cent.

"The university's reputation, faculty, course offerings and other considerations being roughly constant, the tuition hike seems to be the cause," Dr. Oleson said.

Omaha University students now pay about 70 per cent of their college costs. The remaining 30 per cent comes from taxes. This is the reverse of most schools. Taxes normally pay the lion's share.

Commented Dr. Oleson, "It appears that OU has gone about as far as it can go without eliminating deserving students."

Meanwhile, concern continues from another quarter. Former student Mike Thompson, author of "Rebellion" has followed through with a second issue of his crusading paper. Submitted

for Gateway publication, it reads as follows:

"I am a former student of the University of Omaha."

"Believing in keeping the University of Omaha a Municipal University, I have written a paper entitled 'Rebellion', which by now, you the students, know of. The purpose of the paper is to let the people of Omaha know that the University students need their help."

"The people of Omaha had a chance to pass a bond that would have kept the tuition

Thompson ... Part Two

down at OU. The tuition at OU is now \$14 dollars per credit hour, but for the university to survive, the tuition must rise again. This will price many

(Continued on Page 5)

Ah, Well Where Do We Go From Here?

The former head of the economics department at the University of Omaha called a large New York bank this week to inquire about the interest rate on a sizeable loan to build a government complex near Omaha.

Roderic Crane told an officer of the Guarantee Trust Company he wanted the rate on a six-million-dollar loan.

The officer's reply was that Mr. Crane would have to call another bank since "Guarantee couldn't handle a loan that small."

Building Grant Application Filed By OU Admin.

Dean of Administration Kirk Naylor and the Director of Campus Planning and Development Clarence Lefler Tuesday filed with Governor Frank B. Morrison's office an application for Federal assistance which will partially finance the new science and engineering building to be constructed on campus.

Dean Naylor said the application was filed with the governor's office in accordance with regulations set down by the Higher Education Facilities Act of 1963.

Dean Naylor said he expected no action on the request for about a month. He said this delay in acting was necessary so the members of the commission would have time to review all Federal assistance applications for all higher education institutions throughout the state.

Dean Naylor is a member of the Governor's Commission on the Higher Education Facilities Act.

He said the application filed asked for 800 thousand dollars. Earlier the University announced they would ask for 700 thousand dollars.

Dean Naylor said the increase in the amount requested was necessary because more funds will be necessary to construct the new building.

The original cost of the new building was estimated at a little over one million dollars. The new price tag is in the neighborhood of two million dollars, or the amount approved by the Regents.

Dean Naylor said original plans for the new building called for a four story structure. One story has been shaved from the structure at present.

The new building, to be constructed just west of the present Applied Art Building, will be designed with a central utility shaft—a concept not previously used in any OU campus building.

No construction time table has been set.

The new structure replaces plans for an "L-shaped" addition that was to be added to the Applied Arts Building.

About 800 thousand dollars in University funds has already been earmarked for the new structure.

At present the University has 400 thousand dollars more to raise to completely finance the total cost of the building.

Meeting Set For Future Committee; 20 Elected

The first meeting of the Omaha University "Committee of the Future" will be held sometime today or Monday.

According to President Leland Traywick, who was in Chicago most of the week attending the annual meeting of the North Central Association, dean of administration, Kirk Naylor, was to have contacted the 20 members on the committee by Thursday afternoon to notify them of the time and place of the meeting.

The 20 members, as selected by the OU teaching faculty are:

College of Business Administration — Dr. George T. Harris, the Frederick W. Kayser professor of finance; Dr. Jack A. Hill, head of the department of management; Dr. Willis P. Rokes, head of the department of insurance.

College of Teacher Education — Robert L. Ackerman, assistant professor of elementary education; Dr. Hollie B. Bethel, head of the department of elementary education; Dr. Joseph G. Dunn, professor of elementary education; Dr. Paul Kennedy, head of the department of secondary education; Russell D. Gorman, head of the department of physical education for men.

College of Applied Arts—Edwin E. Kinney, director of the technical institute; Cheryl H. Brewett, head of the department of industrial arts; Paul V. Peterson, head of the department of journalism.

College of Liberal Arts—Dr. Paul L. Beck, associate professor of history; Dr. J. V. Blackwell, professor and head of the art department; Dr. Merle E. Brooks, professor of biology; Forrest R. Hazard, assistant professor of foreign languages; Dr. Hubert L. Hunzeker, professor of mathematics; Dr. C. Robert Keppel, assistant professor of chemistry; Dr. Elroy J. Steele, professor and head of the department of economics; Philip H. Vogt, associate professor of sociology; Dr. Ralph M. Wardle, the Albert W. Jefferis Professor and head of the department of English.

Dean Naylor was President Traywick's personal selection to head the committee as its chairman.

According to the president he will charge the committee along the same general lines as he did last week when he announced the formation of the group.

(Included in the charge last week were such things as curriculum, core courses, specialties, a faculty senate, student organizations, funds and financing, registration procedures and admissions policy.)

The committee's first report will be submitted to President Traywick on or before May 24. This will act as an interim guide to the president and the committee to see what the major problems OU faces and to lend some light on possible solutions to them, according to Traywick. The final report is expected to be finished by Thanksgiving.

Hill To Speak At 'Heritage'

The former president of Wisconsin State College, Dr. Jim Dan Hill, will speak on "The Military in the American Tradition" in the first lecture of Omaha University's American Heritage Series next Wednesday evening, April 7. The lecture, which starts at 8 o'clock in the administration building auditorium, is open to the public.

Dr. Hill is a retired Army Major General and the author of several books in the field of American Military history. His latest book is "The Minute Man in Peace and War." Among his other writings are the books, "Sea Dogs of the Sixties," and "The Texas Navy."

Military Career

Hill's military career dates back to 1923 as a second lieutenant in the Organized Corps of the Army. During the following 33 years, (he retired in 1956), he commanded the famed 32nd Infantry Division of the Wisconsin National Guard, the 120th Field Artillery Regiment of Wisconsin and the 190th Field Artillery Regiment of Pennsylvania.

Decorated

He served in the European Theater during World War II and wears five combat stars and an Arrowhead (for his assault landing on Omaha Beach in Normandy) on his European Theater medal. His other combat decorations include the Air Medal, the Bronze Star, for leading Task Force Hill in the capture and occupation of Leipzig by the United States Fifth Corps; and the Legion of Merit, for service during the Battle of the Bulge. He was also awarded the French Croix de Guerre with Palm and Chevalier of the Legion d'Honneur.

During the Korean War, Hill was chairman of the Army's General Staff Committee on National Guard and Reserve Policy and a member of the Department of Defense Forces Policy Board.

Since 1950, Hill has written a weekly newspaper column, "Let's Look At the Record," published in a number of newspapers.

Currently, Dr. Hill is a member of Wisconsin State Coordinating Committee For Higher Education headquartered in Madison.

Last Day

Today is the last day students may "drop" a class without receiving an "F" grade. Today is also the last to make up "incompletes" from last semester.

Honorary Colonel candidates: (l to ri, standing) Joyce Borland, Judy Eichhorn Gilbert, Billie Poulson. (Seated) Judy Jensen.

ROTC Military Ball Tonight To Announce Honorary Col.

By Judy McCoy

Military formality will reign tonight at the 14th annual Military Ball.

The highlight of the evening will be the announcement of Honorary Colonel. Candidates are Joyce Borland, Judy Eichhorn Gilbert, Judy Jensen, and Billie Poulson. The winner is chosen by members of Arnold Air Society.

Arnold Air Society, advanced AFROTC cadets, are sponsoring the all-school dance. The new Arnold Air Commander will be named. Candidates are Clarke Powers, Jeff Ratliff, and Don Spooner.

Other announcements to be

made are: outstanding Junior Cadet; distinguished Senior Military Cadets; four Honorary Majors, chosen from the Junior class and new members of Angel Flight.

Members of Sabres Drill Team under the direction of Bill Applegate and Marching Angels led by Bob Cords will perform.

Angellaires, singing Angels, directed by Marleen McGuire and the Phi Mu Alpha Sinfonia will entertain.

Mal Dunn's Orchestra will provide music for the semi-formal dance. Admission is one dollar per couple. Tickets will be available at the door.

Letters To The Editor

Dear Editor:

Much ado has been given to the multiplying costs of higher education in recent times; however, little, if any, well-meaning solutions have appeared. As is maintained in most cases, the greatest problems arise from people, in that, there are too many of them. Expansion expenditures rank foremost in raising costs and growing Hell.

Obviously, a more selective program of enrollment would enhance the possibility of stabilizing matters. The only complication that arises thus far is, how does one go about being selective?

Omaha University, itself, creates peculiar problems because it is considered a municipal university, having to enlist most anyone willing to attend, regardless of their academic achievements. Looking towards racial segregation doesn't seem like a likely solution, either. It would take a goodly sum of rocks and school spirit, neither of which are near at hand.

Well then, the one thing left to limit is girls. It has been said that girls are here for one purpose only, and that purpose does not appear to jive with intellectual betterment. In fact, it has been said that "women's minds are so small, that some believe they have none at all." (Samuel Butler). Besides, all a woman needs is her intuition to tell her when she is right, whether she is or not. Why should she bother with tuition and higher learning?

Everywhere the tension would ease. There would be more class room, less distraction and no need for separate toilets, all of which would indubitably lower the tuition rate.

Women should feel free to take responsibility into their own hands and quit. I cannot foresee any possible breach of Constitution in submitting an orderly procession of resignation to the registrar. From this action it will never be said that brigands demand your money or life; women require both!

Sincerely,
Dan Novotny

Dear Editor:

The Omaha University Audio-Visual Department has long been plagued by an inconsiderate student body. Not only is theft common place; facilities are abused and frequently in need of repair.

The childish mis-appropriations of take-up reels, records, and other small but necessary items causes those students who need to use the laboratory facilities daily a great inconvenience. I feel, as a visually handicapped person, that this is entirely uncalled for.

Many students seem to lack any regard for the property of others. It seems that there is always at least one machine out of working order. One would think the college student would be able to act like a responsible adult. But such is not the case. The extreme negligence, evi-

dences lack of concern for the treatment of audio-visual equipment.

Why has there been no response to the need for expansion of the Audio-Visual Department? Other facility needs have been recognized and alleviated. The Audio-Visual Department seems to be a University of Omaha orphan. At the time of expansion of the Gene Eppley Library Dr. Bail stated that provisions were being made for the expansion and improvement of the Audio-Visual Department.

What became of this proposal?

No department of the University of Omaha deserves more praise than the audio-visual division of services. They have been extremely patient and cooperative with those students who require their assistance. It is regretful that so many of the students who use its facilities are so ungrateful. Those people who work to serve the needs of the students give much of their time and energy to assist anyone in need of help.

The problem lies before us. There is much we, as a student body, can do to ease the problem for the present. By being careful in our treatment of the materials and machines, and mindful of the importance of the services provided, all of us can help the orphan of Omaha University.

Dick Gulizia

Dear Editor:

A recent incident in the OU Fieldhouse has created a stir among many students. The stirred up students however, wish to remain anonymous.

Dean of Student Personnel, Dean Pflasterer has received letters concerning a fight between two OU athletes. Dean Pflasterer said his door is open to anyone who would like to talk to him about any matter. However, he said, "the letters mean nothing to me if they are not signed."

Those people who must take action on such matters as this are in a difficult position, simply because they were not there. Therefore, maybe your complaints, suggestions and facts would be of help to those concerned.

Perhaps if you take them to Dean Pflasterer personally it would be helpful. But as mentioned before, anything coming from an anonymous source means nothing to Dean Pflasterer.

Loren Schnittgrund,
Gateway Staff

Dear Editor:

The purpose of this letter is to propose the addition of a weekly article to the University's newspaper, GATEWAY. I would like to contribute a column that would be cultural in nature, presenting the customs of the Spanish-speaking people, some of their outstanding literary figures and other artists, pointing out some of the high-

Three Retailing Students Earn \$150 Scholarships

Three retailing students were awarded scholarships by the Associated Retailers of Omaha.

The recipients, Cheryl L. Brooksieck, Sharon Ann Bright and Thomas C. Heenan will receive \$150 and a job with one of the Associated Retail Stores.

A job with a retail store is required to provide the student with experience and the opportunity to demonstrate his retailing capabilities.

lights of their lives. My desire is to have the article printed in Spanish for the benefit of students who are studying Spanish.

In schools I've attended in Mexico, I've contributed to newspapers and have thoroughly enjoyed doing so. An article with a foreign cultural emphasis such as I propose would be an asset to your newspaper and make it even more interesting.

I include a short dissertation of the type I propose for your approval. Thank you for your consideration in this matter.

Sincerely,
Samuel Martinez

Editor's Note:

Mr. Martinez did include a dissertation written in Spanish. The Staff felt not enough people would understand it to warrant publication.

Anyone interested in seeing such a column run in the Gateway, please contact Editor Leo Meidlinger, AA Room 116.

OFFICIAL UNIVERSITY BULLETIN

Alpha Kappa Delta, sociology honorary, will hold its regular monthly meeting, Tuesday, April 6, in Dining Room B in the Milo Ball Student Center at 5 p.m.

The Volunteer Bureau is looking for two girls to help with pre-school Indian children in the nursery at the Neighborhood House at 22nd and Burt. The nursery is held on Tuesday afternoon from 1 o'clock until 3.

Any students interested in this type of work should contact the Volunteer Bureau desk in the lobby of the Milo Ball Student Center on Wednesday from 9:00 a.m. until 1:00 p.m.

"O" Club business meeting for all members, Monday, April 5th, 7:30 p.m., S.C. Room 312-B.

Young Writers Win \$50 Grants

Winners of the Grain of Sand Literary Contest for high school students were announced Tuesday by Dr. Ralph Wardle, English Department head.

A Benson High student, Dale Christensen, was the winner in the short story division. Christopher Kuppig of North High won the poetry division. Both students will win a 50 dollar tuition grant to OU as well as having their works published in the "Grain of Sand."

The winners were chosen from 58 entries of 10 different high schools which participated in the contest.

Editorial Voice

Early this week The World-Herald published stories telling of the firing of The Rev. D. Wright Lunsford as pastor of the First Christian Church located at 6630 Dodge Street.

Although this firing has no real bearing on the University of Omaha in a direct sense, it may have some effect in an indirect manner.

As many students and faculty members will recall it was The Rev. Mr. Lunsford who opened the lots of the First Christian Church to OU student cars. The more than one hundred spaces were most welcome during snowy, winter days when a trudge through Elmwood Park was an experience we could have well gone without.

The Gateway must remain neutral on the firing of The Rev. Mr. Lunsford since it is not our place either to support or disprove the church's board of directors action.

However, we do hope the new pastor and the board sees fit to carry on the benevolent policy of allowing students to park in the church's west lot.

Dick Smith,

On Campus with Max Schulman

(By the author of "Rally Round the Flag, Boys!", "Dobie Gillis," etc.)

IS EUROPE?

College life is such a busy one, what with learning the Maxixe, attending public executions, and walking our cheetahs, that perforce we find ourselves sometimes neglecting our studies. Therefore this column, normally a vehicle for innocent tomfoolery, will occasionally forego levity to offer a quick survey course in one of the learned disciplines. Today, for an opener, we will discuss Modern European History.

Strictly defined, Modern European History covers the history of Europe from January 1, 1964, to the present. However, in order to provide employment for more teachers, the course has been moved back to the Age of Pericles, or the Renaissance, as it is better known as.

The single most important fact to remember about Modern European History is the emergence of Prussia. As we all know, Prussia was originally called Russia. The "P" was purchased from Persia in 1874 for \$24 and Manhattan Island. This later became known as Guy Fawkes Day.

Persia without a "P" was of course called Ersia. This so embarrassed the natives that they changed the name of the country to Iran. This led to a rash of name changing. Mesopotamia became Iraq, Schleswig-Holstein became Saxe-Coburg, Bosnia-Herzegovina became Cleveland. There was even talk about changing the name of stable old England, but it was forgotten when the little princes escaped from the Tower and invented James Watt. This later became known as the Missouri Compromise.

Only last week he invented the German short-haired pointer.

Meanwhile Johann Gutenberg was quietly inventing the printing press, for which we may all be grateful, believe you me. Why grateful? I'll tell you why: Because without Gutenberg's invention you would not have this newspaper to read and you might never learn that Personna Stainless Steel Razor Blades are now available in two varieties—the regular double-edge blade we have all come to know and love, and the new Personna Injector Blade. Users of injector razors have grown morose in recent years, even sullen, and who can blame them? How would you feel if you were denied the speed and comfort and durability and truth and beauty of Personna Stainless Steel shaving? Not very jolly, I'll wager! But injector shavers may now rejoice—indeed all shavers may—for whether you remove your whiskers regularly or injectively, there is a Personna blade for you—a Personna Stainless Steel Blade which will give you more luxury shaves than Beep-Beep or any other brand you might name. If by chance you don't agree, the makers of Personna will gladly buy you a pack of any brand you think is better.

Yes, friends, we may all be grateful to Johann Gutenberg for inventing the means to spread this great news about Personna. The next time you're in Frankfurt-am-Main, why don't you drop in and say thanks to Mr. Gutenberg? He is elderly—408 years last birthday—but still quite active in his laboratory. Only last week he invented the German short-haired pointer.

But I digress. Returning to Modern European History, let us now examine that ever-popular favorite, France.

France, as we all know, is divided into several Departments. There is the Police Department, the Fire Department, the Gas and Water Department, and the Bureau of Weights and Measures. There is also Madame Pompadour, but that is a dirty story and is taught only to graduate students.

Finally we take up Italy—the newest European nation. Italy did not become a unified state until 1848 when Garibaldi, Cavour, and Victor Emmanuel threw three coins in the Trevi Fountain. This lovely gesture so enchanted all of Europe that Metternich traded Parma to Talleyrand for Mad Ludwig of Bavaria. Then everybody waltzed till dawn and then, tired but happy, they started the Thirty Years War. This later became known as Pitt the Younger.

Space does not permit me to tell you any more about Modern European History. Aren't you glad?

©1965, Max Schulman

* * *

And aren't you glad you tried Personna® Blades? You'll be evergladder when you try the perfect companion to Personna: new Burma Shave®. It spaks rings around any other after!

Ground Crew Busy . . .

Rain Delays Diamond Opener; North Dakota State Here Tues.

Hopes for today's scheduled OU baseball opener went down the drain Wednesday as water stood three inches deep on the campus diamond.

Athletic Director Virgil Yelkin has announced that his squad will now open the season with North Dakota State on the OU field Tuesday, April 6th, barring rain or additional snow. The two game set will open with a seven inning affair at 2:00.

The South Dakota University doubleheader, set for that day has been cancelled. The Coyotes refused a Thursday make-up date so the games were lopped from the schedule.

Ground Crews Busy

The Indians are scheduled for a Sherman Field twin bill Wednesday against Nebraska Wesleyan at Lincoln before returning home for a Friday doubleheader with Hastings at 2 p.m.

University ground crews have been doing their best to ready the field for Tuesday's opener. Water has been drained and ice

Yelkin . . . Hoping removed in an effort to have the diamond in A-1 shape.

Yelkin says he will go with an all veteran pitching rotation for the first four games. That means OU's top hurler from 1964, Larry Krehbiel, plus lefty Jim Butler will pitch the North Dakota State series.

Righthander Ken McEwen and portside Larry Wood will open against Wesley on Wednesday. Backup man Gary Girouard, who threw a no-hitter against N. D. S. last year while

playing for Offutt Air Base, will see early service along with freshman Don Jacot and John Robino.

Omaha will take off for its Southern trip at 7 p.m. Friday night after the Hastings games. The Indians will meet Wichita at Lawrence Stadium Saturday in a twin bill.

Then, in succession it's on to Tulsa, Arkansas, and Enid, Oklahoma before returning home.

Tourney Out

The Enid stay will involve a two game series with Phillips University. Originally, the idea was to have been a four team tournament with OU, Phillips, Sam Houston and another school to be named.

However, the plan flopped, so the two schools agreed to make it a two game series.

Yelkin is carrying a 32 man squad that must be trimmed to 17 players by NAIA playoff time.

The veteran head coach hopes to secure a field tomorrow afternoon for the first outdoor team workout.

PLAYER PROFILES

**Joe Benson**

Senior Joe Benson is back after suffering a dislocated shoulder in practice last fall.

The injury cost Benson a chance to earn the starting nod and robbed the likeable OU vet of his first good shot at a full time playing status.

Joe earned a letter in 1963 as a defensive back who saw very little action at quarterback behind talented Carl Meyers.

Benson says the shoulder is in good shape and he will be ready to go this spring. He's an excellent passer and a good runner.

All the young man needs is experience. And without injuries, he may get it this year.

**Marlin Briscoe**

Heading the list is All-CIC quarterback Marlin Briscoe, a two-letter winner from Omaha South. Briscoe led OU in total offense with 1,309 yards last season. The quick soph completed 73 of 143 passes for 939 yards and 9 touchdowns.

In addition, Marlin rambled for 370 yards to rank second in the rushing category behind Little All-American Gerry Allen.

Briscoe operated well from OU's late season shotgun formation and coaches agree that his only problem seemed to be his ability to stay in a pass protection pocket and not to scramble.

Spikers Continue Unbeaten As Volleyball Reaches Break

At the half-way point in league play, the two top volleyball teams could face trouble the next week.

The Faculty Staff, sporting an 8-2 record in league #1, will warm up on tail-enders Theta Chi before tackling their closest rival, the Pi Kaps, who are one game out of first with a 7-3 mark.

In league #2, the Spikers are the only team to remain undefeated in either league with a 9-0 record. However, that mark may be in peril when they face the league's number two team, danger laden 007's who are 6-2 for the season.

Sig Eps vs. I.O.U.'s
Gamma Eta vs. Lambda Chi
Tennis, Anyone?

Entries are now being received for the Intramural Tennis tournament. Interested parties may sign up in the Intramural office. The date of the tourney will be set later.

Deadline Near

The softball entry deadline is April 9, 3 p.m. There is still room for more teams to enter. All games will be played from 3:30-5:30 at Elmwood Park, Monday-Friday.

NAIA Bowl

The NAIA bowling roll-off will be held on April 9, 12 p.m.-5 p.m., at the West Lanes.

Spring Drills Are Delayed A Week

The wet grounds have forced postponement of OU spring football drills for one week, head coach Al Capiglia announced Tuesday.

Practice will begin Monday, April 12th and end tentatively on May 15th with the annual intrasquad game. Caniglia added that an extra week, ending May 22nd will be used if there are any weather postponements after April 12th.

The squad will not practice April 15-20 due to Easter vacation, and MA-IE Day May 14th.

Physicals for ALL spring football candidates who were not members of the 1964 squad or who didn't have an examination for another sport will be given Thursday, April 8th at 4 p.m. in the Fieldhouse training room.

Equipment will be issued to all football candidates on April 9th from 4 to 5 p.m.

Caniglia and his staff expect 26 lettermen plus six transfers and some newcomers to attend spring drills.

Cheerleaders To Try For '65 Spots On April 30th

Cheerleading tryouts will be held April 30 at the OU stadium from 2 to 5 p.m., Inter-Pep President Livi Bergman announced yesterday.

Practices will be held four times before the tryout so that everyone will have a chance to learn the cheers, she said. The first practice will be held April 5, in the women's gym from 2 to 4:30 p.m. The present cheerleaders will be there to help all those trying out. Practices will also be held April 26, 27, and 28 at the same time and place.

Any OU coed in good academic standing with the University, who is planning to return to OU next year is eligible to tryout for cheerleader. Seven cheerleaders will be chosen plus two alternates who will cheer only when a regular cheerleader is absent.

Boys, too

Two men cheerleaders will also be chosen. They should be agile and have some acrobatic ability, Livi said. They also must be in good academic standing and be planning to return to OU next year.

Practices for the men will be held at the same times as those for the women, but in a room off the women's gym. The men will be shown cheers different from those the women will be learning, Livi said. Acrobatics can also be added to the men's cheers.

Livi urged all girls to tryout for cheerleader and reminded them that they could tryout for both cheerleader and the Inter-Pep Cheering Squad. If they make the Cheering Squad, they will still be eligible to tryout for cheerleader, she noted. If they make cheerleader then they will be excused from being on the Cheering Squad.

Omaha U. Quarterback Candidates

	Ht.	Wt.	Home
Marlin Briscoe **	5-10	180	Omaha (South)
Joe Benson *	6-0	175	Paducah, Ky.
Bill Haas	6-3	190	Ralston
Lew Garrison *	5-8	160	Omaha (Tech)

**Lew Garrison**

Tech soph Lew Garrison earned his monogram last fall primarily as a defensive back. The little guy demonstrated alertness and good speed.

In the final game, he took over the quarterback duties and called a nifty play against Fort Hays that had him ending up on the receiving end of a scoring pass from regular signal caller Briscoe, who had switched to a running back spot.

Garrison is expected to stay behind Benson and Briscoe this year and will attend most of his duties to the defensive backfield again.

He will miss spring ball while playing for the OU baseball team.

**Bill Haas**

Bill Haas is what coaches call "an excellent prospect". He's smart, has good size, and is strong on running and passing techniques.

He saw no action as a freshman last year, but was being groomed as a possible replacement for Briscoe if Marlin had been injured.

The Ralston grad was a basketball starter and will return to the court next winter after football.

Indications call for a possible position switch for Bill this spring. He will be given a try at several new spots in an effort to work him into the lineup.

OU Pitcher McEwen Gives "Inside" Look At Baseball's Problems With Bad Weather

By Ken McEwen

The delayed spring weather may look splendid to most OU students but there is one person around the campus that is not completely satisfied. That one person is baseball coach Virgil Yelkin.

Yelkin is only partially satisfied in that the snow is gone from the OU diamond. But the remaining moisture on the diamond has already eliminated today's game and has forced a postponement of tomorrow's scheduled contest.

Intersquad games?

Another problem for the baseball leader is the idea that the team can't get outside for intersquad games. Although not an extremely pressing problem at the moment, Yelkin cannot cut the team until he fulfills his promise to the rookies of "no squad cut until everyone has a chance to prove themselves outside". Trying not to de-emphasize the importance of the Fieldhouse workouts as compared to other schools that have lesser facilities, he said. "That many Fieldhouse wonders turn out to be below average ballplayers on the outside".

Who's where?

Stress in recent weeks has been a game of "shuffle, mix 'em up and match 'em", or whatever it is called. The strategy behind this game is to try to fill vacant positions with the most capable men. It is done by trying certain men at certain positions to see if they might work out for the upcoming season. To do this, Yelkin and assistant coach Carl Myers must try some athletes at positions that the men do not necessarily have their eyes set on.

The main spots that cause concern for the mentors are first base, shortstop and one outfield pasture. Players that seemingly have first shots at these spots are Jim Collin at first, Harold Lenz at short and Fred Gregurus in the outfield.

The whole infield could see a shakeup though according to Yelkin. Three-year letterman Ed Bryant might be shifted from his third base spot, if needed, which would force adjustments to fill that spot.

Catchers Set... Maybe

Even outfield lettermen Rich Vacek and Gary Gilmore may see a change from their accustomed positions.

Infield lettermen Dan Kutilek, Ron and Lon Bernth have shots at all of the positions but like the rest of the infielders, may see a shake-up at any time. Rich Land will likely stay at second base.

Field generals behind the plate, Frank Elias and Joe Berenis, are assured that they will not be transferred. There is still an intense rivalry between the two for a starting nod. Elias is one year up on Berenis in letters earned. Promising freshmen are also vying for the spot.

Pitching Stout

The pitching portion of the squad should be strong this year with four returning lettermen. Larry Krehbiel, Ken McEwen, Jim Butler and Larry Wood return. A host of rookies should provide any more needed depth. Gary Girouard, Don Jacot, Neal Parsons, Dan Rezac, John Robino, Russ Rocheford, and Perry Thompson are the rookies.

McEwen and Wood have also been trying their gloves at other positions besides pitcher.

Inter-Pep Group Is Now Forming For 1965 Season

Inter-Pep Council is now taking applications for membership into its new Cheering Squad for 1965-66, Livi Bergman, Inter-Pep president said Tuesday.

The applications can be picked up starting today in the Student Center Office from Mrs. Stanley or from an Inter-Pep member. Inter-Pep will have a table in front of the Bookstore April 9, 12, 13, and 14, from where applications may also be obtained. All applications must be returned to Mrs. Stanley by April 16, she said.

Members of the Cheering Squad will represent Omaha University athletic teams and will wear special uniforms in the school colors to games and to school before a game.

The Squad will work with the Cheerleaders in pepping-up cheering, she said. It will help with Migration, the Inter-Pep Homecoming Display Contest, the Homecoming Parade, the Freshman Mixer, and a TGIF Dance in the Spring of 1966 honoring all OU athletes. Its members will sit in a specially marked cheering section at football games.

Must have 2.2

Any OU coed currently enrolled for 12 hours, who has a 2.2 accumulative average and is planning to return to OU next year is eligible for membership, Livi said.

Members will be chosen by this process. They must first fill out the application. If they meet the above requirements, they will be invited by mail to a tea in the third week of April. At this time they will be interviewed before an eight-member panel consisting of the Executive Council of Inter-Pep and four OU faculty members.

Members will be chosen on poise, posture, good grooming, personality, and enthusiasm. Those chosen will be notified by mail soon after the tea, she said. Freshman members (of 1966) will be chosen in the Fall during Freshman Orientation.

If a coed has any questions about the new organization, she should contact Livi Bergman at 393-7024.

NAIA Bowling roll-off will be held on April 9th, West Lanes — 12:00. Intramural Softball League

Deadline for entry is April 9th. Games will be played Monday thru Friday, 3:30 at Elmwood Park.

Sig Eps Play Basketball In Illinois Tournament

Thirty Sig Eps returned to Omaha Sunday night with bleary eyes and tired bodies. They were returning from Bradley University in Peoria, Illinois. The occasion was a regional basketball tournament for Sig Eps that was put on by the Bradley chapter.

Some 300 Sig Eps from the Middle West attended to root for their teams and attend a dance held Saturday night.

The Omaha team didn't fare too well as they were defeated 59-54. The Omahans were then free to roam the Illinois city for the remainder of the day and night.

The trip was made by chartered bus that left OU after the Greek Week Banquet and returned about 9 p.m. Sunday night.

Shook, Fuxa Lead Grapplers

University of Omaha wrestlers wrapped up one of their most successful campaigns in history with a 14th place finish in the NAIA Championships.

Coach Don Benning's second OU squad had a dual mark of 9-5. Victories over Northern Illinois, South Dakota State, and University of Kansas highlighted the season. Northern and South Dakota State finished 4-5 in the NCAA College division championships.

Defending NAIA Champion Moorhead State dropped the Indian squad by 15-11.

Sophomore 130-pounder Gerald Shook was the leading OU grappler with a 13-5 record. The Tech grad also topped the squad in falls with 5, and scoring with 53 points.

Senior Captain Jim Fuxa wrapped up a four-year OU career with an 11-4-2 mark. Fuxa's career mark was 25-10-5.

The Individual Records:

Name	Wt.	Wins	Losses	Draws	Falls	Points
Gerald Shook	130	13	5	0	5	53
Jim Fuxa	137	11	4	2	4	45

Note-Golf Changes Ahead

Omaha University officials have announced that the OU-Nebraska Wesleyan golf match scheduled for April 5th at Lincoln has been postponed until April 21st.

The match with Nebraska U. at Omaha on April 8th has been moved to Lincoln on April 7th.

And finally, the match with N.U. scheduled for Lincoln on April 30th has been switched to Omaha on the same date.

KMTV's Dave Blackwell To Emcee Omaha U. All-Sports Awards Fete

'MR. EDITORIAL'

KMTV's Dave Blackwell

KMTV's Dave Blackwell, fondly known in Omaha circles as "Mr. Editorial" for his witty and to the point stories on hot items in the world of sports, will be the emcee for the 1965 Omaha U. All-Sports Banquet May 23rd in the S.C. Ballroom.

Blackwell is a Wisconsin U. grad who came to Omaha in 1964 and has established one of the most popular sports shown in Omaha history.

All OU athletic teams, plus the band, cheerleaders, Indians and other individuals will be honored at the Sunday affair from 4 to 6 p.m.

Letters, trophies, conference awards and special honors will make up the program. Speakers will come from the coaching ranks and the faculty.

Guests will include press, radio and TV representatives,

Trackmen Await Outdoor Opener

Omaha University track coach Lloyd Cardwell made it plain this week that he's not entering any men in this Saturday's Texas Relays at Austin.

Graduated Roger Sayers is the Texas 100 yard dash defending champ but Rocket Roger was the only Omahan to make the trip previously.

Cardwell said his crew will concentrate on getting ready for the outdoor opener April 6th at OU and go from there.

He added that his men haven't been able to get outside and have had to share the Fieldhouse with the baseball team every night.

"We'll just wait and take it in stride," says the easy going OU mentor.

"All we are worried about right now is whether or not our own track will be ready by next Saturday afternoon."

Good luck, Cardie... from all concerned.

Something NEW in birth control

What are the new plastic or stainless-steel IUCD's like? Do they work? Read why only one inexpensive procedure is necessary, and why a leading doctor says IUCD's rank "in the very top range of contraceptive reliability"... in April Reader's Digest. Also—

On the contrary

See if you agree with Sidney J. Harris that sex is NOT just a "natural activity"... and if you can recognize yourself in his brief portrait of a 20th Century Man.

You'll find both articles, along with more than 40 other features, in April Reader's Digest now on sale.

Thompson Compares OU And NU And Finds Quite A Difference

(Continued from Page 1)

Omaha students out of school. "You ask why tuition must go up? It is to pay for new buildings and to keep the professors from quitting because of low pay.

"My belief is that a Municipal University should have financial backing from the city which we are not getting. If the people of Omaha are proud of OU, which I think they are, then, they should help support it.

"The tuition at the University of Nebraska is \$132 dollars per semester for students carrying 14 hours. Students at OU with a 14 hour load pay \$196 dollars. "Our tuition could be comparable to that of Nebraska U with a raise of one mill per tax dollar on our city budget.

"Is one dollar per hundred taxable dollars worth spending to keep OU our university?

"Right now, OU is getting a good reputation, but it has growing pains. It must, it shall expand to a bigger and better university.

"Do you, the students, want to see the State University of Nebraska in Omaha or Omaha University in the state of Nebraska?

"I have been called many things since printing my first edition of "Rebellion." I would now like to explain certain things that I have been asked by students.

"I stressed certain things in my paper. One such thing was victory at all costs. The victory that I spoke of was bringing a halt to rising tuition.

"I believe that it has been said by various administrative heads that tuition won't be raised unless something unforeseen comes up—and then only after careful deliberation.

"I feel that a contract to that effect should be drawn up, stating that tuition will not go above \$14 dollars per credit hour.

"I also spoke of the "new generation." We are the new generation. We are the future politicians, businessmen—in short, the leaders of tomorrow. But without an education, we will, as I have said, sink into the abyss of a dying generation.

"I ask for your help in this matter. Let's keep the University of Omaha as the University of Omaha. And by doing this, let's speak out and have the University of Omaha run like other universities and not like a high school.

"Through my editorials and with the help of the students I'd like to bring this tuition matter of the attention of the taxpayers. I know my tactics

may seem wrong, but sometimes this is the only way to bring something like this to the attention of the people. The mill levy increase has been passed by twice—let's not let it happen again. With a new president at OU and a new city council about to take office, now is the time, to act.

"If anyone has any questions and would like to help me in my campaign, please feel free to call me. (451-9558 or 556-4696).

Michael James Thompson
6247 Decatur Street
Editor, Rebellion

As an afterthought, I would like to say that it is time the university students be treated as such and not like high school students. It is time we see more letters to the editor showing how students feel about certain matters.

Another thing, what right do people have taking ideas (Rebellion) out of the hands of the students? We need more free speech—not repression and censorship at OU. Before it is too late, I hope students realize that what I am doing is not just for myself, but for all of us—present students, future students, and, maybe, someday our children, if tuition isn't so high they can't afford an education.

And that's the latest from the rebel. Is he fighting for a dead or dying cause? Only time will tell.

First Year Debaters To Nat'l Novice Meet

Duane Aschenbrenner, OU's debate coach, and four first-year debaters left Wednesday on a trip to Louisville, Ky. They will participate in the Novice National Debate Tournament. Only first year debaters may compete.

The debaters from OU who will take part are: Joyce McWilliams, Jim Foral, Ginger Todd, and Janet Volte. They will debate the topic, Resolved: That the federal government should establish a national program of public works for the unemployed.

About 50 collegts will take part in the event sponsored by Bellarmine College.

Speech Methods Seen

The Department of Special Education was host to Omaha speech therapists at a discussion and coffee hour last week. Members of the department demonstrated speech therapy techniques with cerebral palsied children.

Dancing Miss Teaches Also

Dancing Barbara Fries has been pirouetting, tapping, and "jazzing" since the ripe age of two. The 18 year-old freshman said, "I began taking lessons when I was two but I didn't really participate, I just stood and screamed."

However enthusiasm took hold and the 5'2" Brown-eyed brunette has danced her way through many a spotlight. At NADA conventions in Chicago she has taken two first place awards and placed second in two other contests. "I'm going going to dance at the convention in Chicago again in July," Barbara continued.

Her talents have also been to Kansas City where she has danced at conventions. However, most of her dancing takes place "behind the scenes."

Choreographer

"I have done the choreography for stage plays, Chanticleer Theatre productions, the civic opera and ballet company, and the Starlight Theatre, in both Omaha and Council Bluffs," she continued. This year she also returned to her high school alma mater, Thomas Jefferson, to do the choreography for the musical "Carnival."

While in high school she was choreographer for two dance lines, helped with and participated in four roadshows, and helped with musicals.

She balances out a 12 hour major in interior decorating at Omaha University with approximately 12 hours a week devoted to teaching seventy students how to dance. Results of her work will be shown at a recital June 8 in the Tee Jay Field House.

Technical Is Favorite

Barbara contends that difficult technical ballet is her favorite type of dancing. "I think it is because you can really appreciate and notice improvement only after many hours of strenuous practice," she related.

Next year she will complete the requirements for an associate degree in interior decorating. After that she would like to move "to some where in the East and work at decorating."

Her spur of the moment decision to choose this course came about with no preparation. "I didn't even have art classes when I was in high school," she mused.

Dancing shoes will be put aside when the pencils are put to use. "I'm not going to teach after I start working . . . anyway I don't plan to unless I really miss it," Barbara concluded.

OU's Nurses Hold Tea

The affiliate nurses who go to Omaha University part time are having a tea Monday, April 12th.

It will be held in the Milo Bail Student Center with Dr. and Mrs. Leland Traywick as guests. The OU faculty and hospital faculty members are also invited.

Corinthians

Students who are currently enrolled for 12 hours this semester and who have completed 58 hours earning a 3.5 cumulative average are eligible for membership in Corinthian Society. Corinthians, an honorary for junior and senior men and women, is looking for new members who meet these requirements. If any student thinks he meets these qualifications, he is asked to contact LaDonna Johnson at 331-6126.

Economics Teachers To Kansas City Meet For Area Association

Head of OU's Economics Department, Dr. E. J. Steele and Assistant Professor of Economics, Dr. Lawrence Danton are attending the 29th annual Midwest Economics Association meeting in Kansas City, Mo., April 1 to 3.

The basic purpose of MEA is to bring together economists of the Midwestern region in a professional meeting that is less formal than the national American Economics Association sessions. The emphasis on informality is a basic consideration in MEA's continued opposition to the printing of its proceedings. Another continuing objective of MEA is to provide program opportunities for younger and less well-known scholars.

American Assembly Program

Sixty persons, representing business, labor, government, education, medicine, religion and other professions have been invited to attend the Second Mid-American Assembly sponsored by Columbia University.

Dr. Steele was recently selected as one of the sixty to attend this program to be held at Oklahoma State University in Stillwater, Okla. from May 30 to June 1.

The subject to be discussed at the assembly will be "Canada — U.S. Relations."

At the close of the Assembly's discussion, participants will approve a statement of findings and recommendations for U.S. policy. It will be published and circulated widely.

One of Forty

Forty faculty members of institutions of higher education which do not offer doctorates in economics have been selected to attend General Electric Foundation's "Program on Recent Developments in Applied Economics," from August 1 through the 27. Dr. Steele is among those who were selected to attend.

This program, sponsored by the Graduate School of Business at the University of Chicago, will examine important recent developments in two major areas: monetary and cycle theory and policy and uses of price theory.

The New Man

A new man has been added to the teaching staff of OU's Economics Department. Donald Connell, a 30-year-old economist whose major field is public finance, will be an assistant professor of economics. He will take his post beginning next September 1.

Currently, Connell is a graduate student at Iowa State University in Ames. He is working on his Ph.D in public finance with special concentration on Iowa property tax.

Dr. Traywick Guest At Annual Alumni Meeting

Dr. Leland Traywick was a guest at the Omaha University's annual Alumni Association meeting last Saturday. Dr. Traywick expressed his desire to meet with a representative group of alumni in the future to hear their ideas on what is good and what is bad about the university. This would be in keeping of the president's program of keeping lines of communication open with all organizations on campus.

The association also amended the articles of incorporation so that there would be no question of its being a non profit organization.

Frosh Student Is Photo Bug

By Marilyn Miller

Civil engineering is the major of busy Omaha University freshman Larry Wasikowski.

His activities on campus are divided between interests in engineering and photography.

The TOMAHAWK which is to be distributed in May will exhibit some of Wasikowski's most recent work. Aside from TOMAHAWK photographer he also snaps photos for the Gateway.

Work

His work is not limited entirely to the student publications department however. Approximately 15 hours a week are devoted to work at Callaway Studio where he is a lab technician and photographer.

When not working for OU or the studio, he works as a roving photographer for WOW-TV. "I take pictures for them when one of their own camera men cannot get to the scene," Wasikowski continued.

Teacher

World Herald photographer Pat Hall was instrumental in teaching him how to take creative pictures. When Larry was in high school at Bishop Ryan, he took a course from Hall in a special class offered at Duchesne Academy. This steered his interest into the field after which he was appointed publications photographer at Bishop Ryan.

Candid photos are still more in demand from him. On the weekends he photographs numerous weddings and other activities.

The 19-year-old student won a plaque for a picture he entered in the 1963 Nebraska Best Photograph Contest.

"I'm working on pictures for a contest now for the Professional Photographers of Nebraska," he said.

Activities

Also keeping him busy are his 18 hours of freshman courses. He plans to complete the 140 hours credit hours required for his degree by June of 1968.

And why is Wasikowski enrolled in beginning photography?

"So I can learn what I am doing and also because I want to learn the basics of the course," he concluded.

OU Students, Culture Go Hand-In-Hand?

Omaha may not be known as one of the cultural centers of America but it is not lacking in cultural activity.

It bothers me to hear some of my fellow students here at the University moan about Omaha's lack of "Cultural" institutions and how this stifles their creative impulses. And it never ceases to amaze me that it is usually these same people who neglect to take advantage of the cultural activities that do exist here in Omaha.

Our own University campus is a good starting point from which to begin the search for "a well cultured life." Each semester our own drama department produces some fine entertainment. I would venture to say that over half the population of this campus don't know that Oliver Goldsmith wrote a play called "She Stoops to Conquer," even after it was highly publicized all over the campus.

Last semester the OU Reader's Theatre performed Dylan Thomas' "Under Milkwood." But, who showed up? I attended both performances of this play and I have to admit that most of the faces I saw there belonged to persons outside of the University.

Did we have these culture-hungry students grappling to gain admission to see these productions? Not exactly.

How many students attend OU's World Affairs Institute to hear some very qualified people tell about their experiences in other countries in hopes of stimulating a little "cultural interest" in us? I am again sorry to say that the majority of faces in the crowds that attend belong to non-university people.

And More Culture

The availability of this cultural material outside the University walls is abundant also. Joslyn Museum (located on 22nd and Dodge if you're interested) is presently showing the Art Nouveau. This is a show of art work dating from 1900 on. The Omaha Civic Opera Society adds a very distinguished dab of cultural color to the Omaha scene. Their current production is the opera "The Marriage of Figaro," by Wolfgang Amadeus Mozart. Don't let the word "Mozart" scare you. This is culture that is truly enjoyable. Students may even attend for a special price that's easily within their budget. The Omaha Historical Society delves deep into the culture of the Omaha area for those who are really interested. And the Omaha Civic Auditorium is a veritable Elysium of culture the year around.

Throughout the years, Omaha has hosted many of the worlds finest artists. Miss Margaret Killian, head of OU's department of home economics told me recently, "As a young woman, I saw some of the greatest musicians like Paganini and Rachmaninoff perform right here in Omaha."

Culture is the sum total of the ways of living built up by a group of human beings to be transmitted from one generation to another. In a day of speculation, we owe it to ourselves to take an interest in our own culture or we shall live like statues in a village square—never participating in the little adventures of life.

Yet Another Laurel

About two weeks ago, representatives from Uncle Sam's Peace Corps visited our humble campus. They set up a long table in the Student Center and proceeded to heap it high with literature guaranteed to stimulate the interest of those students streaked with adventurous curiosity.

I was fortunate to have heard two of the Corps representatives, Mr. Sher and Mr. Peyton, give informal speeches about the Corps. Mike Sher, the grandson of the late Dr. Philip Sher of Omaha, was in college when he became interested in the Corps. "I was like so many college people—I was undecided as to what I wanted to do," he said. And so it was that this young man joined the Corps and spent two years in Latin America.

Tom Peyton, the other speaker, is a 45-year-old French teacher who spent two-and-a-half years on Africa's Ivory Coast teaching the natives to speak English. Peyton was a delightful and enthusiastic example of what our country is doing to promote human understanding internationally.

Mr. Peyton told me that he was very happy with the response of the students here at OU. Donald Pflasterer, Dean of Men, told me recently that he received a letter from the Peace Corps Washington Office thanking OU students for turning out in such fine form.

I think that the OU students' response is a good sign that the University is instilling something more than just "book learnin'" in its students. Our OU will definitely be judged by the success of its graduates. For a half century since its founding in 1908, the University has furnished Omaha, the state of Nebraska, and the nation with men and women of sound intellectual training and strong character. The interest shown by all those students who took the Peace Corps test last month is yet another laurel for the University of Omaha.

John Coleman Visits Campus

John Coleman, KETV personality, was on Omaha University's campus Tuesday.

Mr. Coleman spoke to Mr. James Onder's Television Techniques Class, on director - performer relations. Later he demonstrated golfing on a closed circuit television program directed by class-member Jim Horky.

"Getting along with people is the most important thing in television work," said Coleman. He added that the person who gets along will go the farthest and be the happiest.

The biggest trouble with most directors is that they feel that their only job is to call the shots, it is more than that Mr. Coleman said.

Before coming to Omaha, Mr. Coleman worked in Peoria and Champaign, Ill.

OU Will Host Dr. Good; Will Lecture To Public

Dr. Carter V. Good, University of Cincinnati, will be the Visiting Distinguished Professor at OU April 5th-9th. He will speak at a lecture open to the public Monday evening at 7:30 and at the All-School Convocation Wednesday.

Dr. Good is the Dean and Director of Graduate Studies in the Education and Home Economics Departments at Cincinnati U and is the author of several books.

He will be the guest at a luncheon for all Teacher Education faculty, a coffee hour Tuesday at 3:30 p.m. given by Kappa Delta Pi, a dinner Wednesday given by Phi Delta Kappa, a graduate faculty tea Thursday at 3:30 and he will be available at various times for informal talks with students and faculty in room 101 in the Administration building.

Secretaries Sponsor Their Annual Seminar

The University of Omaha will host the twelfth annual Seminar for Today's Secretary in the Gene Eppley Conference Center tomorrow. The Seminar is sponsored by the Department of Secretarial Science and the Division of Continuing Education.

The program, beginning at 8:30 a.m. will be split into two sessions. Dr. Leta Holley, professor of secretarial science, is chairman for the event. Those presiding are Dr. Holley; Dr. Jack A. Hill, professor of business administration and Miss Verda Rauch, associate professor of secretarial science.

"The U in Human Relations" and "Growing on the Job" will be the topics discussed by Dr. Allen R. Russon, professor of management at the University of Utah. Dr. Russon has written three books dealing with secretarial, office practice and business teaching.

Other guest speakers include: Ralph K. Chatfield, administrative assistant of the Omaha Public Power District; Mrs. Joan Hargrove, member of the Barbara Lammers Personnel Service and William T. Utley, dean of the College of Adult Education.

A fee of seven dollars covers registration, coffee service, luncheon and materials costs. Today is the deadline for registering. Further information can be secured from Thomas E. Moore, director of Continuing Education. His office is located in the Conference Center.

Theater Stars Five

A Readers Theater production, "A Long Day's Journey Into Night" will be presented next Tuesday and Thursday in the Conference Center Auditorium.

Members of the cast are: Charles Stewart as James Tyrone, Maureen Borden as Mary Tyrone, Denny Adams as Jamie Tyrone, Gary Johnson as Edmund Tyrone and Nina Bieda as Kathleen, the maid.

Lettermen Coming For OU Performance

Just in case you have missed the many posters distributed around campus, do not forget that the Lettermen will be coming to OU Tuesday, April 13th.

The nationally known group will entertain at 8:00 p.m. in the Field House.

Dr. R. Hancox Joins Faculty

Meet Dr. Robert R. Hancox, a new face in the physics department. With the title of professor, Dr. Hancox is instructing four classes this semester. They are: Heat and Thermodynamics, Physics 112, Physics 212 discussion and Physics 112 212 lab.

Dr. Hancox came to OU directly from the Great Lakes Pipe Line Company in Kansas City, Mo. He worked there in industrial research. He has also been employed by the Armory Research Foundation in Chicago, Ill. and the Mid-West Research Institute in Kansas City.

Former Teacher

Prior to this he has 14 years of college teaching to his credit.

Places he has taught in are Olivet College, Olivet, Mich.; Missouri Valley College, Marshall, Mo. and the Chicago College system.

Dr. Hancox received his bachelor's degree in math from Iowa Wesleyan College, Mt. Pleasant, Ia. His master's and PhD work were done in Physics at the University of Iowa, Ames, Ia.

"This is something I'd always planned to do," he replied when asked why he came back to teaching. Commenting on the changes in the teaching aspects since his last "college days" the new physics professor quipped, "The equipment and the course have changed. So have I."

Why

Dr. Hancox has these words for those people who are against space exploration, "Why make any investigation? It's man's curiosity." He continued by saying that most scientific developments are the result of someone's curiosity. To back this up he stated the example of Einstein and his Theory of Relativity that matter could be converted into energy. This all came about because of Einstein's curiosity.

Married and the father of two daughters, his family is still in Kansas City.

Keppel To Visit Tufts Institute

Dr. C. Robert Keppel has been accepted to attend a six-week institute at Tufts University, Medford, Mass. The institute will be held from June 28 to August 6.

The objective of the institute is to help college chemistry teachers who wish to introduce quantum chemistry and molecular structure to their students. Those attending are hindered by a less than adequate background in molecular spectroscopy.

Dr. Keppel stated that future graduate students are expected to know molecular spectroscopy when they enter a graduate school. He said that the chemistry curriculum at the University of Omaha does not stress this point.

The institute is sponsored jointly by Tufts and the National Science Foundation, which will pay the costs of the participants.

Profs Go To Meetings Of Their Organizations

Members of the education department faculty are attending meetings and working with people in the areas of education this week.

Dr. Paul C. Kennedy, head of the secondary teachers, was elected vice-president of the Nebraska Association of Student Teaching at a meeting held in Lincoln last Saturday.

This weekend Dr. Kennedy will go to Kearney for a meeting of the Teacher Education Preparation Standards (TEPS) organization.

University President Leland Traywick, Frank H. Gorman—Dean of the College of Teacher Education and George R. Rachford—Dean of the College of Graduate Studies are in Chicago attending a North Central Association meeting. The North Central Association is the accrediting agency for colleges in the area.

Dean Gorman is the chairman of a subcommittee on Teacher Education in Multi-purpose Institutions.

Dr. Paul Ackerson is in Denver attending a meeting of the National Council of Teachers of Sciences.

Univ. Studies Sees Changes

The University of Omaha's University Studies Division, under the direction of Dr. Charles Harkness, has unique expansion problems.

First, the department itself has had to expand to meet the student - numbers - versus - the - counselor problem and secondly, an expected increase in the number of students enrolled under the University Studies Division has not been realized.

Tackling the latter problem first, Dr. Harkness said last year's University studies enrollment increased by about 30 during the fall-to-spring semester. This year it dropped by about 80. The current number enrolled under the program is about 585. Dr. Harkness said, "We had anticipated possibly 750 to 800 this year."

Searching for an explanation for the drop in roll while the University as a whole held somewhat better position, Dr. Harkness speculated, "Probably our planning was off because of the rise in tuition rates. Possibly some people who went here one semester could not afford to return."

Dr. Harkness was quick to add that since the University Studies Division is in its infancy, nothing definite could be presumed concerning trends toward higher or lower enrollment figures.

Tech Institute Reports Rise In Its Enrollment

There have been 118 students in the Technical Institute since it began September 21, 1964. Enrollment in the fall was 78. It has increased to 87.

Actually there have been 21 new people. However 12 have dropped out. Edwin Kinney, head of the technical institute, believes at least one-half of these will come back in the fall.

The 118 total includes 10 students in an evening class. Spring classes could not be arranged for them because of space, faculty and course sequence problems.

Another nine dropped out of basic math. This loss was offset by nine new students.

This amounts to about two ready to replace each dropout.

Fall Semester

Mr. Kinney has high hopes for the fall semester.

He said he expects to have 180 students in the fall, with 60 carrying over from this year's program.

To get the other 120, Mr. Kinney is carrying out an extensive program of building local interest in the institute. For example, he notifies counselors at each Omaha high school. He also visits these schools on their career days and explains the aims of the institute.

Summer Plans

During the summer he will mail pamphlets to all graduating boys. He also sends letters to businessmen whom he thinks will have some interest in the program. Many times businessmen will call back to find out more information or to offer suggestions.

The success of the first year has prompted the addition of a fourth option, industrial engineering technology. This will deal with the operation of manufacturing facilities. Plans call for this option to begin in the fall. It will also be a two-year program.

Milton On The Loose

Forgetful Grandpa Talks About 'Good Old Days'

By
J. C. Milton

I think it's time we did something about the lack of communication between the older generation and us. The older generation being those that remember college as only a place for hi-jinks instead of the fine learning device it is today (Ahahahaha.) Which brings me to my Grandfather, and if you were listening, this would be a simple transition.

Grampa, or as we sometimes called him, "The man who married Gramma," or "You old fossil, you," told some pretty good stories in his day.

"Roy," he'd say, "have I ever told you about the good old days?"

"Only three million times," I'd say, "and my name isn't Roy."

He'd pretend not to hear me. "Well, sit down then, Sam, and I'll tell you all about them." I'd say no and he'd hit me with his cane and so I'd listen.

"It was during the depression," he'd begin, "we were starving, of course, . . . no jobs, no food, no Great Society. . . ."

"You sure these were the good old days?" I'd ask.

"Of course I'm sure and shut your mouth, Edgar," he'd reply. "We were poor when it came to money—but we had something far far better than all the gold in the world."

"What was that?" I'd ask.

"I can't remember," he'd reply and wait for a laugh which never came. "Anyway we had a lot of fun in those days," he'd continue.

"I can imagine," I'd say.

"Look, 'whats-your name,'" Grampa would reply, "quit interrupting or I won't tell you any more stories about the good old days."

"Is that a promise?" I asked, the last time we talked.

"On second thought," he said, "if you open your mouth again, I'll talk your ears off about the good old days." Consequently, I haven't talked to Grandfather since.

I'm not sure the present conditions are a panacea for the lack of communications between generations, in fact, I'm not even sure what panacea means; but, I think, despite popular opinion to the contrary, that it is a step in the right direction.

OU's 70 Foot Wells Getting Overhaul Job

The University's two wells are getting their three-year overhaul this week. Layne Western got the job with a bid of \$275 per well, plus parts.

The wells are 70 feet deep and are put together in 10 ft. sections. The sections are pulled out by a truck-mounted boom. Dismantling a well is an all-day job.

The wells are being fitted with new bushings and bearings. The insulation will be tested and the wells cleaned.

Both wells are located on the north side of the Administration Building. One operates the air conditioning system in the Administration Building; the other, the library's air conditioning.

What can you do about the problem?

Well, first you have to figure out what the antecedent to the word 'it' is in the phrase "that it is a step" etc. As for lack of communication between the older generation and us, I think you will agree that it is best to leave it at the status quo. We know when we have a good thing going, don't we?

If there is one thing I enjoy it's getting letters from people telling me what to do rather than where to go. I get suggestions all the time, some of which I don't particularly care for, but others which are quite useful.

One young man suggested I write something about the food served in the Ouampi Room. "The people over there are so humane," he says, "that they let the animals die of old age before they serve them."

Also, someone suggested I write about the Republicans. Unfortunately, I am not supposed to pick on minority groups, so that leaves them out.

"Drunks are always good for a laugh," writes another young man who was probably under the influence at the time: However, I usually give suggestions to drunks rather than vice versa. For example: I received this letter from a distressed colleague:

Dear Sir:

"We went to a party the other night and my date had the audacity to say I got a little tipsy—"bombed out" was the way she described it. Well, I beg to differ. I certainly don't remember getting bombed out. In fact, I don't even remember the party. But, what's bugging me, is that I can't recall who my date was that night. Got any suggestions?"

My answer to him, in the inscrutable and philosophical style of Ann Landers, is "May you fall and get snow down your boots."

That should put a stop to letters coming in for awhile.

A bachelor's guide to marriage

Corey Ford offers a few hints "marriage counselors may have overlooked."

Find out the one thing to murmur when your wife (tardy) asks if you've been waiting long or your husband (lost) drives 50 miles before asking directions . . . in April Reader's Digest. Also—

Who shall be the judge?

A doctor describes his moral struggle—should he deliver this baby girl who would never dance or run?—and tells how his decision was sustained 17 years later . . . in the April Reader's Digest, with more than 40 other features now on sale.

The heated plate is inked thoroughly.

The plate is first engraved and then stop-out varnish is applied.

The plate is then wiped of excess ink.

Printmaking Class Offers Interesting Work

By Vern Johnson

Students in Thomas Majeski's printmaking class take one from plate to prints in three main steps. This class consists of elementary, intermediate, and advanced students. Elementary students begin on a self-portrait. Color is not used until the advanced stage.

A series of drawings or sketches is needed to arrive at the subject. A basic drawing is transferred to the plate and then the copper plate dictates the technical and aesthetic approach to developing the print. There are four major techniques, of which the one shown here is the Intaglio that includes etching and engraving.

Line engravings are made on metal plates with a steel burin,

a tool which removes the metal in spiral strips and leaves a line. The plate material is usually copper but zinc is sometimes used.

The press consists of a heavy steel bed plate passing between two rollers. The plate is heated while an adhesive ink is forced into its grooves and indentations. The excess ink is then removed. The plate is laid upon the press with a moistened sheet of paper on it, the hole being covered with several layers of woolen blankets. When the bed with its plates passes between the rollers, the heavy pressure causes the damp paper to take a cast from the ink plate. The print is then stretched on a board in order to keep it from wrinkling while

drying.

The only way the etching differs from the engraving process is the process by which lines are incised. This is done by a pointed etching needle. The plate is covered by an acid-resistant varnish called hard ground. The needle or pointed tool removes the ground exposing the plate which is then placed in the acid. The acid bites the exposed parts. The hard ground is then removed and printed. In order to get various tones, stop-out varnish is used.

Mr. Majeski said "Technical difficulties of printmaking are one of the students' greatest problems, but their inability to draw is even a greater handicap."

The plate is placed on the press and run through.

The print is pulled off the plate and viewed.

The finished print is taped to the board for drying.

OU Painting On Telephone Book

By Judy Wilson

Northwestern Bell Telephone Company had distributed the handiwork of Omaha University art student Joe Rewolinski to

Rewolinski and phone book

nearly every home in Omaha.

The scene on the cover of the phone book is a reproduction of an oil painting which Rewolinski drew from the Ak-Sar-Ben bridge.

"I think color is the most important thing to me in a painting," Rewolinski said. His brightly-hued "Omaha: Skyline at Sunset" depicts the outline of the city and a vague reflection in the Missouri River.

Not The First

The painting is one of four which Rewolinski submitted to a contest which the telephone company sponsored. The original is now on display in the Bell Telephone art gallery.

The sale to the telephone company is the most recent but not the first. He has sold several others while at OU. One of them, purchased at the annual student art auction last spring, now hangs in the faculty lounge in the Student Center.

Always Painting

"For me, the idea takes much longer than the actual painting," he said. Although his actual canvas-time is only about two hours a day, he spends his other time at a local body shop painting cars.

He will receive his bachelor of fine arts degree in June and hopes to go into the field of commercial art.

Nat'l Education Honorary To Initiate 30 Members

Kappa Delta Pi, national education honorary, will initiate 30 new members today at an initiation-tea.

The affair will be held at 3:30 p.m. in Room 312 of the Milo Bail Student Center.

Included in the list of initiates is Dr. Donald C. Cushenberry, director of the reading clinic.

New members are Ardys Anderson, Louise Danton, Barbara Danze, Katherine Dayton, Reta Donahoo, Alvin Engdahl, Betty Fenn, Ruth Green, Thelma Grush and Judith Hoeyet.

Others are Velda Hughes, Marsha Hunter, Irene Hurd, Lorene Johnson, Mary Ann Kalb, Rita Kallhoff, Alice Krieger, Kay Moore, Wilma Moore and Catherine Mosher.

Rose Ann Nelson, Edna Reimer, Carol Rosenbaum, Grace Rowoldt, Grace Schumann, Ruth Sharp, Eleanor Whitman, Etta Wilson and Janice Woodcock complete the list.

To be eligible for membership in Kappa Delta Pi, a student must have a 2.9 accumulative grade average for 57 credit hours, and must be working for a teaching certificate.

Dropout Why 'Not Financial'

College dropouts reign in the news today. The question of why the student leaves college is ever-present. "One of the main reasons for students not returning to college," says Dr. Charles Harkness, director of Omaha University's University Studies Division, "is financial."

Dr. Harkness bases his statement on surveys conducted among those who have voluntarily departed from the University Studies program - and from OU.

'Couldn't Afford'

One survey was taken among students who failed to return to OU in the spring of 1964. Of those dropouts who answered Dr. Harkness's questions, 25 percent reported that they could not afford to return to OU.

However, Dr. Harkness feels the answer to the dropout problem lies not in a financial solution but in the student's relationship to his own education. This problem rests on the shoulders of the counselor, who must, "help the student to concern himself with his own education," said Dr. Harkness.

Not Excessive

In referring to the money problem, Dr. Harkness said

Dr. Harkness

"Tuition costs at OU generally are not excessive. I can't feel that they are out of line at all. Tuition has something to do with it, but I suspect that there would be dropouts if the tuition were five dollars per hour.

"Dropping out is a choice an individual makes for himself," continued Dr. Harkness.

Band's Brass Section Will Perform Sunday

A concert will be presented Sunday, April 4 by the brass section of OU's Concert Band. The event will be at 7:30 p.m. in the Gene Eppley Conference Center Auditorium.

Brekke Gets Award

A committee of faculty presented Sigurd C. Brekke with a Nebraska Real Estate Association Scholarship.

The scholarship worth \$200 is for the current semester. Brekke is a Junior in the College of Business Administration.

PART TIME EMPLOYMENT MEN & WOMEN

If you are 18 to 35 and free from 6:00 PM to 10:00 PM four evenings each week and Saturdays, You can maintain your studies and still enjoy a part-time job doing special interview work for the

GREAT IDEAS PROGRAM

that will bring an average income of \$75. If you are neat appearing and a hard worker - be at Room 208 Adm. Building on Thursday, April 8, at 4:00 PM, sharp, for interview.

Night Clubs Topic Of Sociology Study

By Rand Witke

"You can find everything in the yellow pages" is certainly a slogan Mrs. Marilyn Heidrich put to use.

The graduate student in sociology conducted a survey during December and January which she termed definitely "interesting."

Night clubs—64 strong—were selected from the Omaha telephone directory. "I went to all but those out of town or those which were shut down," Mrs. Heidrich said.

Categories

The night clubs were placed into five groups to make the survey easier to plot on a map. The largest number was in the "genuine night club" group which were well distributed throughout Omaha.

"Posh bars" were concentrated more in the downtown area and outside of town. The shopping center night clubs were actually cocktail lounges in the strictest sense. Dancing to combos or bands were found in separate rooms in some of the neighborhood night clubs.

The "working" night clubs catered mainly to men and had regular customers who patronized the pool tables and bowling facilities.

"The purpose of grouping the night clubs was to form a map determining whether certain types of night clubs were found in certain areas," she continued. "For example the genuine night clubs were mostly located near 72nd Street."

Purpose

The survey was conducted for an Urban Sociology class. Mrs. Heidrich didn't try to judge or rate the clubs but only to use them as models.

"I've lived in many places and I think Omaha on the whole has some nice night clubs and restaurants," she said.

On one occasion when her husband Capt. Robert A. Heidrich accompanied her, the night club insisted on "frisking" its customers. "Needless to say I let my husband go in alone," Mrs. Heidrich mused.

Team Work

Mrs. Heidrich and her husband, who is stationed at Offutt, have worked together on other sociological studies. "I do free lance writing and my husband takes the pictures," she said.

She did her undergraduate classes at Washington State University. While studying at Antioch College at Dayton, Ohio she had a seminar under Rod Serling of "Twilight Zone" fame.

Various travels with her husband have taken her to Africa, Europe and other places throughout the world.

Currently she is working on her masters thesis on "The Oxford Group." After obtaining her degree, she wants to teach sociology on the college level and write popular sociology articles.

Son Of Ratti Reported Well After Accident

Paul Ratti, son of Lieut. Col. and Mrs. E. P. Ratti, was reported progressing well this week following injuries received in an automobile accident the night of March 11.

Colonel Ratti, professor of Aerospace Studies at OU, said his son, 16, returned to school Monday after several weeks in the hospital. He said Paul suffered a severe head concussion and cuts in the one-car accident. Three other youths were also injured.

Mrs. Titzell . . . just a reminder for rubber check writers.

'Authors' Use Funny Money

By Dick Smith

The 007 agents in the University of Omaha's cashier office never say die when it comes to tracking down the writer of a "rubber check."

Omaha U.'s head cashier Verna Titzell said this week during second semester registration more than 150 bad checks were passed for tuition, books and supplies.

She said these checks represent a face value of more than several thousand dollars.

How does the university treat bad checks and their "authors"?

Mrs. Titzell explained the County Treasurer is the "banker" for the university. She said when the treasurer's office gets a returned check, the university must "buy" it.

She said then her office has to assume responsibility for collection.

After the university gets the check from the county treasurer's office, the student is contacted and asked to make the draft "good."

Mrs. Titzell said if the student refuses, class denials are issued.

She said if a student writes a bad check for tuition on the last day of registration, he is charged the regular 50 cent fee

for bad check handling in addition to the five-dollar fee for later registration.

Mrs. Titzell said the late registration fee is charged since registration is not complete until all tuition and fees are paid.

Mrs. Titzell added if a student registers and pays with a bad check and then drops the classes, he is charged the difference between the total tuition amount less the refund. The refund is determined by the sliding scale as outlined in the University catalog.

She said when all measures of collection have been exhausted, she turns over the student's name to the Retail Credit Association, the bookstore and the writer's name is put on the university bad check list.

"In addition," Mrs. Titzell said, "a stop is put on all grade transcripts and university records for that student."

"The student is only hurting himself when he fails to 'make good' a bad check."

Mrs. Titzell said the number of "rubber checks" passed each year is growing. She said the first semester is usually worse than the second semester for her office when it comes to checking out bad drafts.

Ingham's Hope: Man Talking With Animals Through Tape

Equipped with a portable, battery-operated tape recorder, Dr. Charles Ingham has been recording sounds produced by various animals. Currently he is studying the sounds of crickets.

It is his hope that eventually man can actually talk to animals with the use of a tape recorder. Man would speak to these animals using sounds made by the animals themselves.

The first step in this form of communication, according to Dr. Ingham, is to record sounds made by the animal under study. He has recorded various "speeches" of crickets. One of these sounds proved to be a mating call. In cricket language, a mating call is a repetition of three short beeps which are undistinguishable to the human ear.

This mating call was recorded at normal speed of seven and one-half inches of tape a second. Then the call was slowed to one-fourth normal speed. This reduced speed enabled the listener to distinguish the short beeps.

Dr. Ingham then recorded an imitation of these beeps made by a female student. The imitation was played back at normal speed to a female cricket. An imitation of the mating call by a male student was also played to female crickets. In

both cases the results were negative. Dr. Ingham believes that the crickets were either old or not yet adapted to their new environment in the biology lab.

All of the crickets died, ending the experiments for the time. The tape recorder experiment will be resumed as soon as weather will allow shipment of new crickets from Florida.

Dr. Ingham is also studying sounds of other animals such as bees and fish. He has been recording animal sounds for seven years.

OU Sponsors History Group

President Leland Traywick this week announced that the University has joined with 40 other institutions as a sponsoring member of the recently organized Western History Association.

Among other sponsors are Cornell University, University of Colorado, University of Missouri, University of Nebraska, Stanford University and the Yale University Press. This historical society is in its fourth year of operation and has 1600 members.

Membership is open to both professional historians and "buffs" in Western history.

"Proud"

"The University of Omaha is proud to be associated with the other distinguished institutions which have a part in sponsoring the Western History Association in the advancement of the knowledge of the history of the great region of America in which we live and work," Dr. Traywick said.

The society is scheduled to hold its 1969 meeting in Omaha on the 100th anniversary of the driving of the Golden Spike. This marks the Centennial year of transcontinental train operation out of Omaha over the Union Pacific Railroad.

Charter Members

Charter members of the W. H. A. include OU history department members Dr. A. Stanley Trickett, professor and head of the department; Professor Frederick W. Adrain and Professor Roy M. Robbins.

Dr. Trickett participated in the organizational meetings for the society in 1961 and 1962.

"The Western Historical Association is the most active and distinguished association dedicated to historical study which has come into being during my period of work as an historian," Dr. Trickett summed up.

Urban Studies Leader Wins National Award

Director of OU's Urban Studies Institute Harry W. Reynolds Jr., has been named winner of a national award from the American Society for Public Administration.

He will receive the William E. Mosher Award for the best article by a university scholar in last year's "Public Administration Review."

Dr. Reynolds' article was Local Government Structure in Urban Planning, Renewal, and Relocation." He will receive his award April 13 at a banquet in the Hotel Muehlbach, Kansas City, Mo.

Physics Head Judges 'Fair'

The Carson, Ia., High School Science Fair was judged by Physics department head John McMillan last Saturday.

Terming the fair "a success," McMillan said he enjoyed participating.

Yesterday the department head journeyed to Whiting, Ia., as a guest of the Iowa Visiting Science Program. He lectured to high schoolers and told the requirements for enrolling in a college science program.

In other department news, McMillan has announced the entry of another project in the 75th annual Nebraska Academy of Sciences, April 30 and May 1. **Light Beam**

Ronald Susman's project concerns a light beam transmitter in which a modulated light beam will broadcast information. The use of this is similar to that of the laser. However, McMillan says the OU laser is a high-energy pulsed type with the flashes coming in bursts. This can't be used for modulated information.

A continuous laser can be so used. McMillan pointed out that a large amount of research money is being spent on this. The major high point of this is a large amount of information can be carried on one light beam if the research proves successful.

TV Use

In other words, this could be advantageous for use in television frequencies.

At the present time it is difficult, if not impossible, to grant a license to every person or group of persons wanting a TV license. The main problem concerns the overlapping of frequencies. By beaming television frequencies with light, there would be no overlapping; thus, several hundred frequencies would be available.

OU Educators Prepare Study

The members of the education department and the academic advisors are working on a study of the programs which are required to prepare a student to teach.

This study will be submitted to the State Department of Education for its approval by June 30 due to new certification laws.

Because of the change in certification requirements, the education department at the University of Omaha may have to change or eliminate some subject matter areas presently taught.

Therefore, some students may have to do more work in their field.

After the study of OU's program has been submitted, the recommendations of this agency may change some requirements.

Six Students, Faculty To Discuss Education

Six secondary student teachers, chosen by their faculty supervisors in their subject matter area, will attend a student-faculty luncheon, March 17. Jana Doxon, Betty Reeves, Deanne Brezacek, Lana Lewis, William Jones and Mike Mathis were chosen.

The purpose of the luncheon is to discuss problems and anticipate future aspects of student teaching in the secondary field.

The luncheon will be held in dining room B of the Student Center at 11:30.

Bootstrapper Gets Medal For Service In Saigon

James J. Lindsay, a bootstrapper in the College of Adult Education, has been awarded the Bronze Star Medal. The medal was awarded for outstanding meritorious service in the Republic of Vietnam.

The citation reads in part—"By direction of the President

the Bronze Star Medal is presented to Major James J. Lindsay, United States Army; For distinguishing himself by outstanding meritorious service in connection with ground operations against a hostile force in the Republic of Vietnam during the period, March 1964 to January 1965."

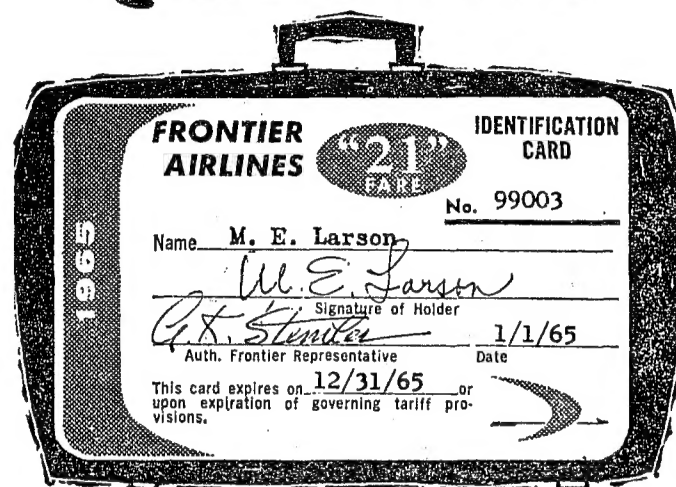

100 Entries Submitted

Over one hundred entries were submitted by 44 OU students for the May issue of the "Grain of Sand."

"This is twice as many as ever before," Dr. Ralph Wardle said. "This will add to the difficulty of judging the works," he said, "because only 12 or 15 contributions can be published."

The physical plant at Omaha University was developed through the acquisition of additional properties. The John Jacobs Memorial Gymnasium, a gift of Mrs. M. O. Maul, and Joslyn Hall, a gift of Mr. George A. Joslyn were the major buildings.

Bobbie Meck; left, and Kitti Murphy ... candidates for "Miss Auto Show."

Two Omaha U Coeds Named Semi-Finalists In The Nebraska Motor Sports Queen Title

Two University of Omaha coeds were chosen as semi-finalists for the Nebraska Motor Sports Queen title Sunday at the Sheraton Fontenelle Hotel. They were chosen by a panel of officials for the 1965 Auto Show.

Kitti Murphy was chosen Miss Antique. She is a freshman, affiliated with Chi Omega sorority and a member of Indians, marching group.

Miss Sports Car

Roberta (Bobbie) Meck is a Zeta Tau Alpha pledge and is in

her first semester at OU. Her title is Miss Sports Car.

The girls will vie for the title against ten other candidates at the Auto Show to be held at the Civic Auditorium April 24th-25th.

The semi-finalists were chosen on the basis of poise, personality and beauty. The title of Miss Motor Sports Queen will be decided by the public. Persons wishing to vote must do so at the show. The winner will be announced the last night of the show.

A trophy and a 100 dollar savings bond will be awarded.

Sorority Workshop To Plan For Coming Year

The Zeta Tau Alpha Workshop for 1965 will be held April 1 through 3 at State University of Iowa in Iowa City, Iowa.

Representatives from Province II will be represented. This includes Gamma Mu Chapter from OU, Beta Eta from Nebraska University, Alpha Alpha from Nebraska Wesleyan and the hostess chapter Alpha Omicron from SUI.

Topic for the weekend will be "Giant Steps for Zeta Tau Alpha in 1965." Old and new business will be discussed and plans will be made for the coming year.

Business Honorary Pledges Members

Three women were pledged Sunday by Phi Chi Theta, women's business honorary.

Cheri Brooksieck, Esther Maurer and Lydia White were pledged in a ceremony held at the Fireside Restaurant.

Delta Sigma Pi Meeting

Delta Sigma Pi business fraternity will hold a meeting Friday night at 8 p.m. in the student center.

Lloyd Berg of Lloyd Advertising Incorporated will talk on advertising.

Foreign Student Club Elects First Officers

The International Students Organization has elected its first officers. The organization was started this year with the idea of helping foreign students on campus and other Omaha University students get to know each other better.

Sheila Nelson will lead the organization through its first year as chairman. Other officers are Tim Adebayo, assistant chairman; Claudia Chorley, secretary; Sue Krenzer, publicity chairman and Mike Hill, program chairman.

Club Sponsors

Sponsors for the club will be Dr. Paul C. Kennedy, foreign student adviser and Dr. Charles A. Harkness, director of University Studies. Mrs. William E. Jaynes will aid in the advisory capacity.

Foreign members of the club come from such countries as Greece, Germany, Nigeria, Pakistan, Iran and Colombia. The countries cover a radius of 47,687 miles from Omaha University. A membership survey taken by Mike Hill disclosed that the member farthest away from home is M. Aslam Kahn of Pakistan. The member living closest to OU is Joe Schik who lives two and a half miles from school.

Future plans include monthly meetings and weekly carry tray luncheons. The luncheons will be held on Thursdays in Alcoves A and B of the cafeteria at 11:30 a.m. The meetings will be announced.

Annual Proofreading Starts In San Angelo

At least two Omaha University students will come back to school next week with tans. Sheri Hronek, editor of the 1965 Tomahawk and Barb Brown, 1966 editor, left today for San Angelo, Tex. to proofread the annual. They are being flown in a private plane owned by Newsfoto, publisher of the yearbook.

Accompanying Barb and Sheri is Paul V. Peterson, head of the department of journalism and advisor to student publications. The three will tour the plant and make last corrections to the yearbook.

The 1965 Tomahawk will be available to full-time students with their activity cards about the middle of May.

Phi Alpha Theta Initiates Thirty-two Members; Ludwig Mehrer Is History Club's New President

Phi Alpha Theta, the history club, has initiated the largest group of members it has taken since it was started at the University of Omaha in 1934.

The new members were initiated March 15th. A student must have completed at least 12 hours of history courses with a 3.0 or better average to be eligible for membership.

Ludwig Mehrer serves as president of the club, Larry D. Miller, vice president, and Frank Bunder, secretary.

New Members

The new members of Phi Alpha Theta are:

Frank E. Ahrendt, Raymond H. Armstrong, Marilyn S. Barton, Jimmie Booker, Allen J.

Traywick Hosts Tea

Dr. Leland Traywick hosted a tea for Food Service and Physical Plant personnel at 4 p.m. Tuesday in the Milo Bail Student Center Ballroom.

The affair was part of Dr. Traywick's get-acquainted-with-university-people program.

Frenzied, Well Groomed Coeds Must Wait Until Military Ball Announces New Angels

Notice any frenzied, nail-chewing coeds shakily awaiting their "last rites" last week? Or have you seen immaculately groomed girls with Time magazines clutched tightly in their sweaty fists? Oh... you didn't? Well, nonetheless, these things have been happening. The reason? The annual Angels Flight interviews.

Sixty-Five Applicants

This year 65 coeds have nervously gone before the Angels-Arnold Air Society Board in hopes of becoming Angels (auxiliary to Arnold Air Society, advanced Air Force ROTC cadets). Questions asked... on national events and local and school activities. The Board also found out what applicants did and didn't know about Air Force ROTC and Angels Flight.

Typical questions and not-so typical answers:

"What do you think about the 'Rebellion'? Do you think the author went about his goal in the right way", came a question from the Board. "Well, since I wrote it, I'm naturally a little prejudiced," came the quick answer with a laugh.

"What do you think of the idea to have the Angels wear fatigues?" "Oh, I don't think that would be very good," answered an applicant. "Then you couldn't tell them apart from ROTC guys."

"Are you nervous?" "Well," (titter, blush, sigh, squirm,

hem, haw, giggle) "Heh... yeah, a little."

Of the 65 applicants, 20 or 25 will be chosen. Thirty five of these are freshmen, 23 are sophomores, and seven are juniors. Highest grade average of those applying is a 3.93. The lowest was a 2.30. Roughly 74 per cent of the applicants have some sorority affiliation. This is approximately the same as the present membership of the flight.

Interviews

Interviews lasted about ten minutes each. Applicants were judged on scholarship, poise, grooming, attitude, and personality. Those trying out had to have a full-time student standing and a 2.30 grade average.

AND NOW FOR THE ANNOUNCEMENT YOU HAVE ALL BEEN AWAITING!! Those who made Angels Flight are... oh, I forgot... I don't know. As a matter of fact nobody knows yet (How absent-minded of me.) I guess we'll all have to go to the Military Ball tonight and find out when they announce it!

Sig Ep Beard Contest Will End On April 15

Has anyone noticed the new beards in the northeast corner of the Ouampi room? These bristles are being grown by the members of the social fraternity, Sigma Phi Epsilon. The men of the social fraternity are competing for a secret prize to be presented to the coolest beard at their Viking Blast, a party planned for April 15. Fraternity sponsors will be the judges.

Keep your eyes on those beards for the outcome.

Corinthians Taking New Memberships

Corinthians is now taking new members. If a student is enrolled for 12 hours this semester and has completed 53 hours earning a 3.5 cumulative average, he should contact LaDonna Jackson at 331-6126 for consideration for membership. Corinthians is an honorary for junior and senior men and women.

ZTA Gains Pledge

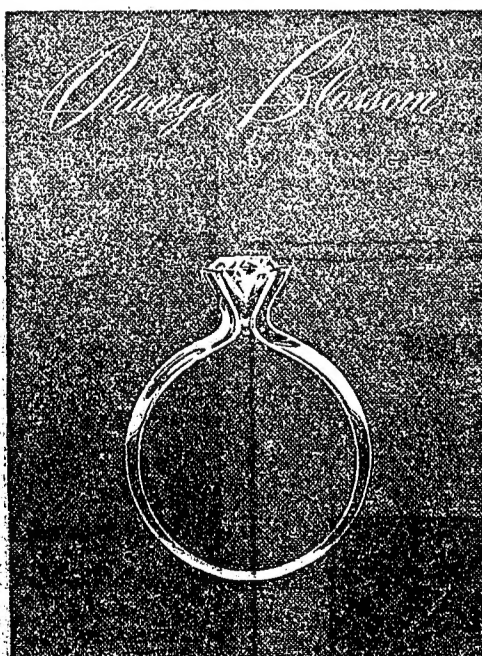

Marsha Linstrom has been given a pledge ribbon by Zeta Tau Alpha. Formal pledging will take place on April 7.

What you can do with an hour a day

Pat McFarland Represents Kans., Nebr. In American 'Miss Wool' Contest At Texas

Pat McFarland will fly to San Angelo, Texas, today where she will represent Kansas and Nebraska in the "Miss Wool of America" Pageant.

The contest, sponsored by the American Wool Producers and the American Wool Council, will be held April 2 to 9.

In January, Pat was chosen "Miss Wool of Nebraska" at the regional contest held in Lincoln. About 200 college girls applied to enter the pageant. Pat was selected to represent Kansas and Nebraska over the 11 other Nebraska semi-finalists and the Kansas winner.

Approximately 20 regional winners will vie for the national title. Entrants will be judged on modeling ability, charm and the ability to speak intelligently and pleasantly. In addition, each girl is required to present a three-minute speech on wool.

The girl selected "Miss Wool of America" will receive a scholarship plus a 55-piece wool wardrobe.

The "Miss Wool" Ball, barbecues, ranch parties and parades are scheduled for the week-long event. Pat and the other contestants will appear on tele-

vision and at a San Angelo department store. While in Texas, Pat will have the use of a 1965

Pat McFarland

convertible.

Pat is a home economics major with aspirations of becoming a fashion coordinator. On Saturdays, she works in the fashion office of an Omaha department store, and has modeled on the store's college fashion board for the past two summers. She also works part time on campus as a lab assistant in the reading improvement clinic.

A member of Sigma Kappa sorority, Pat has recently been elected recording secretary. This year she received the scholarship improvement award from the Sigma Kappa alumnae chapter.

Honorary Fraternity Select Memberships

Senior men's honorary fraternity, Omicron Delta Kappa held a carry-tray meeting Monday to revise its point system. ODK also set a meeting date of next Tuesday to accept the new point system.

Application forms will be made available to interested Junior and Senior men after the Tuesday meeting.

Men interested in the honorary should contact any one of the member-sponsors, Dr. Ralph Wardle, Dr. Gale Oleson, or Dean Donald Pflasterer.

Members that may be contacted are Chuck Saxton, Loren Drum, Mike Kisgen, Jack Mielke, Ken McEwen, Joe Snell, Bill Wakefield or Gary Masilko.

Requirements for membership in the club are a B minus grade average and participation in campus activities.

Tapping will be held at the Spring Sing.

Campus Organization Activities

April 2—The Military Ball will be held at Peony Park from 9 p.m. to 1 a.m.
April 4—Canterbury Club, Ecclesiastical organization, will meet at Trinity Cathedral at 6:30 p.m.
April 5—O-Club will meet in Rm. 312 SC at 7:30 p.m.
April 6—Alpha Kappa Delta will have a carry tray dinner and meeting in Dining Room B of the cafeteria at 5:15 p.m.
April 7—The Honors Convocation will be held in the Administration building auditorium at 9:30 a.m. Classes will be dismissed.
April 8—The International Students Group will have a carry tray luncheon in Alcoves A and B of the cafeteria at 11:30 a.m.
April 9—Alpha Epsilon Pi will hold its second annual AEPI Throw in the Field House at 7:30 p.m.
Gamma Theta Upsilon, Geography honorary, will have a carry tray dinner in Alcoves A and B at 6 p.m. A meeting will precede the dinner in Rm. 313 SC at 4:45 p.m.
The Biology Club will meet in Rm. 344 Adm. at 3:30 p.m. There will be a guest speaker.

Permission to carry fewer than 12 credit hours or more than 17 credit hours must be secured from the students' academic dean.

Scholar Of Month Is Against Wasting Time

Hole-filling is the secret of success. This was the formula given by Jim Blazek, Corinthian Society's Scholar of the Month.

Jim, a freshman in the College of Business Administration, has a 3.8 average for the summer and fall semester. He is a member of the band, and last semester played in the Woodwind Ensemble. He also works part time at Lutheran Hospital.

Jim graduated from South high school, where he was a member of the National Honor Society.

On a Regents Scholarship, Jim feels that this is an incentive to keep his grades up. His hole-filling theory is that one or two hours between classes should be used for study rather than wasted drinking coffee or playing pool.

CAE Features Willson

"Music Man" Meredith Willson will appear on campus Monday, April 19. He and wife Rini's performance is sponsored by the College of Adult Education.

They will appear at 8 p.m. in the Administration building auditorium.

"An Evening With The Meredith Willsons" will feature a humorous epilogue with piano interruptions on Mr. Willson's youth in Iowa and start in show business. He and Mrs. Willson will entertain with songs from his musicals.

Students Hear P-T A Speaker

Mrs. Ellen Bieler, field consultant from the National Congress of Parents and Teachers, addressed a group of education students last week.

She said no other organization in the community has the higher certification requirements, potential for working for the mental and physical health of school age people. She said in 1960, the President recognized this and called on the then president of the National Council of Parents and Teachers to head his council on youth.

Chi Omega, Pi Kappa Alpha Win Awards For Scholarship At Greek Week Banquet

Group scholarship awards were presented to Chi Omega and Pi Kappa Alpha at the seventeenth annual Greek Week banquet Friday night.

Chi Omega, topping the sororities for the 17th time, had an over-all average of 3.01. Pi Kappa Alpha led the male groups with a 2.39 average. Chi Omega also received a scholarship award from the Omaha City Panhellenic.

Outstanding Pledges

Marjie Holmquist of Chi Omega was named the Outstanding Sorority Pledge. Marjie received a 3.8 grade average last semester while being a pledge class officer and serving on the Student Council.

Wayne Wotherspoon of Theta Chi received a 125 dollar scholarship when he was named the Outstanding Fraternity Pledge. Wayne is a member of the band, orchestra and choir. He is also a member of Phi Mu Alpha and the Young Republicans and has participated in Intramurals.

Wayne was also awarded the Fraternity Pledge Scholarship trophy for his 3.357 grade average.

Scholarship Trophies

Janet Archer of Chi Omega

Panhellenic Council Chooses President

Delores Hurlburt of Sigma Kappa will be the president of Panhellenic Council next year. She has served on the inter-sorority council as vice-president and Junior Panhellenic advisor during the last two semesters.

Other officers on the council will be Kristi Isaacson of Chi Omega, vice-president; Mary Lynn Rohde of Alpha Xi Delta, secretary; and Jacque Newcomer of Zeta Tau Alpha, treasurer.

OU's Home Ec Head Is Elected To Office

Miss Margaret P. Killian, professor and head of the home economics department at Omaha University, was announced president-elect of the Nebraska Home Economics Association. The announcement was made Saturday at the convention in Lincoln.

Miss Killian will serve as president-elect for one year, and then will take office as president for two years. In the past she has served as vice president.

and Ann Bogatz of Alpha Xi Delta were given Sorority Pledge Scholarship trophies. Both received four point grade averages last semester.

Deanne Brezacek of Chi Omega won the Highest Active Scholarship trophy. Dee has earned a four point average the last two semesters. Gregg Muffitt of Tau Kappa Alpha topped the fraternity actives with a 3.62 average over the past year.

Patti Matson of Chi Omega is the Panhellenic Girl of the Year. She received a 100 dollar scholarship from the City Panhellenic for being the outstanding junior in a sorority.

Patti is a journalism major and has been editor of the senior section of the 1965 TOMAHAWK and a cheerleader. She has also worked on the GATEWAY, served on the Student Council for three years and is a member of Angels Flight Honorary and Corinthians. Patti has served as Rush Chairman of Chi Omega and is presently pledge trainer of the sorority. Her accumulative average is a 3.55.

Intramural Sweepstakes

Lambda Chi Alpha was awarded the Intramural Sweepstakes trophy. Trophies were also given to each fraternity for the events they won in Intramurals.

Dr. Leland Traywick addressed the Greeks attending the banquet. It was held in the Milo Bail Student Center Ballroom.

Alpha Xi's Will Host Annual Dinner Dance

Alpha Xi Delta will hold its dinner dance April 3 at the Birchwood Club from 7:30 p.m. to midnight.

There will be a pre-party at the home of Marji Scott from 5:30 to 7. Sharon Eddy, the new social chairman, will be in charge of the pre-party.

Music will be provided by the Ernest Bryant Band. Dress for the occasion will be semiformal.

The "Sweetest and the Meanest" pledges and actives will be announced, and the new officers for 1965.

Judy Jensen is the general chairman in charge of arrangements for the evening.

Newman Club Elects New Officers Sunday

Election of officers of the Newman Club will take place Sunday, April 4. A Communion Breakfast, following the 9:30 Mass, will be held in St. Margaret Mary's School.

Members of the Newman Club will participate in a project to acquaint college-bound high school seniors with the group. In teams of four, they will be going to the 11 Catholic high schools to discuss the role of Newman Club in campus life.

The University and its various colleges, divisions, and departments reserves the right to change the rules controlling admission to, instruction in, and graduation from the University or its various divisions.
